

Daniel Forsthofer

I have been fortunate to build a depth of experience that ideally qualifies me for specialised AI training facilitation and project orchestration. I have the skills to generate new business, assemble, train and lead teams plus build systems from the ground up. My goal: provide practical steps to achieve mastery in AI.

2024-Present: TSplus - Head: Northern Europe (Ongoing)

TSplus is a French Multinational Software Developer. I manage partner development and expansion in the Netherlands, Scandinavia and the Baltics. >80% increase from 2025 - 2026 YTD in direct sales. Cross silo work coordinating internal teams in AI, process automation and building systems to replace SaaS subscriptions.

2021-2023: PPT Group - Senior Consultant & Delivery Manager

PPT group is a remote, tech-centric management consultancy.

I was in charge of custom product programmes spanning all phases from discovery to live systems including onboarding and change management. Coordinating 30+ stakeholders. Multi-app delivery rollout to 2.5m+ customers. Led workshops weekly for 20-50 people + 150 people quarterly. Core clients: Spur Group, Famous Brands, Probe Corporation.

2020-Present: Tutto Consulting Services - Co-Founder (Ongoing)

During covid, I founded a tech centric operations optimising consultancy which now specialises in AI Adoption. We build and enhance systems for teams in leadership, analytics, sales, marketing, HR & law. Our philosophy is to teach our clients to build and maintain themselves on a base we provide, bringing technical skills to non-technical roles, through agentic coding. 6 deployed system in 6 months, cutting days into hours for client workloads. Core Clients: Bearstone International, RGBC, Intent Architect

2012-Present: Tutto Food Co. - Co-Founder

Tutto Food Co. Started as a hobby: my wife and I cooking paella on weekends. Now I operate it remotely from France. Tutto is a specialised catering company with 13 years of goodwill. My core role in operations involved building a highly automated system from the ground up to manage clients, staff, suppliers and accounting. Great service, exceptional products and a love for food tie it all together.

Not what you may have expected on this CV :)

2011-2012: HFI - Business Development & Account Executive

Administered and grew multinational user experience consultancy Human Factors International (HFI) in SA. Remote work alongside an international team. Focus: financial sector projects and training modules in South Africa. Core clients: Standard Bank, Bidorbuy (now [bobshop.com](https://www.bobshop.com)) and CSIR

2010-2011 Standard Bank: New Territories & Products - Analyst

Part of a team, developing bottom-of-the-pyramid mobile banking products for the African continent. Remote work with project teams in Nigeria, Uganda and Zambia. This work was a precursor to Thyme Bank.

Focus: research and development for new products and blue ocean markets.

Education

2009 Post Graduate Diploma in Management (WITS) Top 5 Student

2008 Honours Philosophy (WITS)

2005 Bachelors Degree Philosophy & Economics (WITS)

2003 Matric - Head of technology (Redhill High School)

Interests: Immersive education, AI & agentic systems, nature & outdoors, DIY & home improvement, design, philosophy, behavioural science & Lego. Preference for aligning family, kids and dogs with my interests.
